

Production Technician

Description

Please note that Hatfield Media is a marketing agency that has a video/photography/live-event department. Although some terminology from true film production job descriptions may be relevant, we don't operate in the same manner and the boundaries between tasks/jobs may be more fluid than in a true video production crew.

- Supports video, photography, and live event production/operations.
- Candidate must have a good driving record and will be expected occasionally to drive a company vehicle.
- There will be occasional travel with lodging and per diem provided.
- This will be a flexible position and the candidate will fill various roles depending upon the situation.

Duties may include any of the following:

- Audio tech for video shoots
- Camera Operator
- Follow-Focus (2 nd AC)
- Teleprompter Operator
- Video Tech/director for multi camera Hybrid Live and/or streaming events
- Typical Gaffer/lighting duties
- Safely hanging lights in our studio.
- Assist with set construction
- May occasionally lift up to 75 pounds
- General photography and video skills are a bonus.
- This is not an editing job, but you will be given an adobe creative cloud account and will be given the opportunity to edit video and/or photos.
- Set-up and strike of gear, loading/unloading of trucks. Assisting in the upkeep and management of a small warehouse operation.

In addition to being computer literate, the applicant should have a grasp of basic electrical and electronics concepts.

He/she will learn to troubleshoot issues related to audio and video gear, and should be generally handy with tools.

Applicant should be able to work a flexible schedule. The job will require occasional nights and weekends.

Reports to:

Director of Media Services
Video Department Creative Director
